

KL30TSX

Prime - 25 kW Standby - 27.5 kW

ENERMAX SERIES

TecnoGen's Enermax Series generator is built for reliability and is ideal for continuous heavy duty applications.

This series ranges in size from 25 kW to 1000kW and is equipped with market leading engines - Volvo, FPT, Kohler. Standard features include Deep Sea controller, camlocks, block heater and battery charger.

TecnoGen's 30kVA generator uses the Kohler engine coupled to an industry standard Leroy Somer alternator producing 25kW of prime power. Standard features include camlocks, and block heater. The Deep Sea controller makes retrieving vital stats like fuel levels, run time and start logs easy and the sealed doors and 2" thick insulation throughout gives this gen a 68dBA rating.

The internal fuel capacity is 49 gallons allowing for a run time of up to 40 hours @ 75% load. The convenient external fuel hookup allows for quick connect to an additional fuel cell if needed. The TecnoGen Enermax series is built for reliability and is ideal for continuous heavy-duty applications Available on trailer or skid mounted.
